CANINE AND FELINE DENTISTRY

Online course by **Olga Tretter**, DVM, MRCVS

11 VET WEBINAR online lectures

LECTURER:

Olga Tretter, DVM, MRCVS, exotic animal specialist, www.caladrius.hu

Olga Tretter graduated as a veterinarian in Budapest in 2010. Even during her student years, starting at her second year she spent all her free time in small animal practice. After graduation she spent two years in Balatonalmádi, Hungary at Lutra Small Animal Surgery, then in 2012-2015 she worked in England: two years in a private practice in London (Hill Park Veterinary Group / Harold Hill branch) then one year at Companion Care Chelmsford.

The experiences gained in England have influenced her greatly and in 2015 she made the decision to move back to Hungary with the solid intention of using the knowledge acquired abroad and giving the highest quality of veterinary care to her patients and clients. Between 2015-2018 she was the head veterinarian and clinical director of **Körönd Veterinary Services** on Andrásy út, Budapest where her main duties were performing dental and maxillofacial procedures, managing the surgery and mentoring young colleagues and students.

In 2018 she finished her exotic specialist degree. As a **member of the EVDS** (European Veterinary Dental Society) **and the RCVS** (Royal College of Veterinary Surgeons) she had the opportunity to participate in many conferences and workshops abroad in order to further deepen knowledge in her fields of interest. She has been lecturing regularly in England and occasionally in Norway where she has been gaining even more experience in veterinary dental radiology. With her colleague and business partner she opened her own practice – **Caladrius** – in Budapest at the end of 2018 where she continues to provide outstanding general and specialised dental care for her patients and her mainly English-speaking clients.

GUEST LECTURERS:

Zoltán Lajos, DVM, specialist in veterinary microbiology
DUO-BAKT Veterinary Microbiology Laboratories, Budapest, www.duobakt.hu

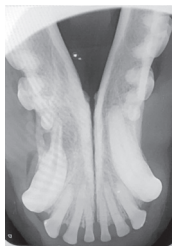

Antal Seregi, DVM, specialist in small animal surgery
FELICAVET Animal Hospital, Budapest, www.felicavet.hu

2019
